Your Skills & Requirements.  
Your Main Responsibilities.

Here's what the Regional Specification Manager role at Lumi-Plugin® is all about.

We're at an exciting stage of growth and the Regional Specification Manager - London will be a key part of this journey.

So, if you're looking to have true ownership of your regions sales activities and be a major contributor to changing how people light and alarm their homes everyday - you're in the right place. At Lumi-Plugin® you can truly make a difference and grow as we grow.

Quick apply to become our Regional Specification Manager here. 

Regional Specification Manager - London

# Your Main Responsibilities.

- Developing multi-discipline capabilities with specifiers within New Build markets including Developers, Electrical Contractors, Installers and relevant supply chain Distributors
- Ensuring all business opportunities for Lumi-Plugin® are managed professionally and cross selling opportunities are maximised
- Delivering Installer / Contractor training on the latest British Standards and installation recommendations
- Specification sales via the Electrical Wholesale Channel within the agreed area
- Ensuring that all Lumi-Plugin® products obtain ultimate focus and opportunities
- Providing strong representation for the company at all times
- Creating and managing an annual business plan by account
- Enhancing all networking opportunities and other relevant meetings
- Pro-actively identifying new and different business opportunities to provide increased sales
- To visit all customers as demand on regular call cycle
- Developing and maintaining strong relationships with key account customers
- Staying up to date with all industry trends, issues and news
- Developing strong relationships with the New Build housing sector, Installers who work in the sector and Electrical Contractors

Your Skills & Requirements.

More about Lumi-Plugin.

Here's what we're looking for, don't worry if you don't have all of these skills we can help with training.

**Our top requirements are...**

- A person with a positive go getter attitude to challenge the status quo.
- A person with an enthusiastic personality that will fit into our team seamlessly.
- A person that is a true self starter and is self motivated to never give up.

Regional Specification Manager - London

# Your Skills & Requirements.

- Have previous sales experience in a similar area of the industry
- Possess experience in the Electrical Distribution market preferably in the specification of building materials
- Have willingness to travel a lot as this is mostly a remote working role visiting existing and potential clients
- Be a dynamic, results-driven self-starter who will thrive off taking responsibility of the opportunities within their region
- Have the ability to work independently with the full flexibility that this offers
- Possess strong interpersonal skills, be a resourceful and committed team player to join our growing team
- Be a confident relationship builder with clients at all levels, building credibility and rapport naturally
- Hardworking focused individual with an a high level of drive on sales and results orientated
- Must have a full UK driving licence along with the willingness to travel within the London area
- Experience using Salesforce and/or Unleashed would be beneficial
